

SITUATION

- With the rise of remote work, mobile devices have become a necessity, leading to increased e-waste and demand for sustainable disposal solutions.
- Businesses are now required to manage e-waste responsibly.
- Many end users prefer to retain their old devices even after they reach the end of their lifecycle.

CHALLENGES

- Decommissioned devices often contain sensitive data, and their inappropriate disposal can result in data leaks, opening businesses up to ransom attacks.
- Traditional IT Asset Management does not extend to device disposal, leaving a gap in the management process.
- Many businesses lack a system to certify and report data wipes and sustainable disposal.

END OF LIFE IT ASSET MANAGEMENT SOLUTIONS

- Virtu provides a secure, end-to-end device pick-up service from your sites, mitigating the risk of devices going missing during transit.
- We offer detailed asset reporting, including data wipe and disposal certificates, all accessible via our End-of-Life IT Asset Management portal.
- As part of our service, we buy back your old equipment, offering Virtu credit for your future purchases, thereby aiding in cost management.

Our EOL ITAM solution ensures a secure, sustainable, and economically sensible way to handle your end-of-life IT assets:

We provide **MARKET-LEADING BUYBACK VALUES**, reducing the total cost of ownership of your IT assets.

Our **SECURE DATA ERASURE & DISPOSAL SERVICES** guarantee the confidentiality and integrity of your sensitive data.

We provide **ENVIRONMENTALLY FRIENDLY DISPOSAL CERTIFICATION**, allowing your company to showcase its commitment to responsible, sustainable practices.

Custom Fields Device Identifier: 1001230	
Erasure Results	
Serial No: 00012345678901234567	SN: 123456
Start/End Time: 2022-04-08 08:32:28 / 2022-04-08 08:32:50	
Duration: 00:00:17	
Method: NIST smart erase (Automatic factory reset)	
Status: Erased	
Internal Memory	
Serial No: 00012345678901234567	SN: 123456
Start/End Time: 2022-04-08 08:32:28 / 2022-04-08 08:32:50	
Duration: 00:00:17	
Method: NIST smart erase (Automatic factory reset)	
Status: Erased	
Hardware Details	
Manufacturer: Apple, Inc.	
Model: iPhone12,1	
Market Name: iPhone12,1 (A2302) Space Gray	
Color: Space Gray	
Capacity: 256GB	
Serial: 00012345678901234567	
Name: iPhone12,1 (A2302) Space Gray	
Wi-Fi MAC Address: 08:00:2E:01:00:00	
Internal Model: A2302	
Model Number: A2302	
Part number: 13,111	
Region: USA	
Country of Origin: PRC	
Country of Origin: PRC	
Manufacturing Date: 2021-09-01	
IMEI: 353827081111111111111111111111111111	
ECID: 00012345678901234567	
Firmware Version: 15E101	
MTF Size: 256GB	
OS: iOS	
Battery Information	
Serial: 00012345678901234567	Voltage: 5.0V
Manufacturing Date: 2021-09-01	Discharge Cycle: 29
Capacity: 2560 mAh	Health Level: 88%
Charge Level: 25%	Health Icon: 92%
Temperature: 25°C
